Marking Guide

Notes for markers

1. Full marks for a correct answer unless the question asks for working.
2. Follow-through: a later part that uses an earlier wrong answer correctly earns its marks.
3. Units: do not deduct for missing units; note it for feedback.
4. Rounding: deduct only where the criteria say so.
5. Green = Foundation, Blue = Standard (Test yourself levels).

Section 1 marking criteria – Data

Question 1 1 mark ■ Green Classifying data TY9 Q9 (9.05, green)

ANSWER **D (The time taken to swim 50 m)**
MARKS **1 mark:** D (The time taken to swim 50 m)
NOTES *Time is measured, so it is numerical continuous. A is numerical discrete (counted), B is categorical nominal, C is categorical ordinal.*

Question 2 1 mark ■ Green Shape of a distribution (dot plot) TY9 Q6a (9.03, green)

ANSWER **B (Negatively skewed, clustered at 8 and 9)**
MARKS **1 mark:** B (Negatively skewed, clustered at 8 and 9)
NOTES *Most scores are high (a cluster at 8 and 9) with a long tail to the left (low scores), so the data is negatively skewed. (Mean 7.3 is below the median 8.)*

Question 3 1 mark ■ Green Mode from a histogram TY9 Q4b (9.02, green)

ANSWER **A (2)**
MARKS **1 mark:** A (2)
NOTES *The tallest column is at 2 (frequency 9), so the mode is 2 people. 9 is the frequency, not the score.*

Question 4 1 mark ■ Green Effect of an outlier TY9 Q2c and Q3c-d (9.01, 9.02, green)

ANSWER **C (The mean)**
MARKS **1 mark:** C (The mean)
NOTES *Mean 7.9 → 6.44 (changes by 1.46); median 6.5 → 6; mode 6 → 6 (no change).*

Question 5 3 marks ■ Green Mean and median from a stem-and-leaf plot TY9 Q3b (9.02, green)

a) ANSWER **25 minutes** 2 marks · ■ Green
WORKING Sum = 12 + 15 + 18 + 21 + 24 + 24 + 27 + 30 + 33 + 35 + 36 = 275
Mean = 275 ÷ 11
MARKS **1 mark:** sum of the scores: 275
1 mark: mean 25
NOTES *Follow-through: a wrong sum divided correctly by 11 earns the second mark.*

MARKS **1 mark:** Tigers, with a reason that compares the medians

NOTES *Follow-through from part a. Accept a comparison of where the scores cluster.*

c) 3 marks · Blue

ANSWER **The Kestrels: their range is 15 goals (46 − 31), much smaller than the Tigers' 35 goals (57 − 22).**

WORKING Kestrels: 46 − 31 = 15
Tigers: 57 − 22 = 35

MARKS **1 mark:** Kestrels range 15
